

I am asking you to oppose HR 4026. XM radio poses no threat to paid radio. I just wish it did and maybe we'd have less ads. That is why I purchased XM radio. I still listen to paid radio as many programs are not available on XM. I just wish they carried more talk radio favorites of mine. In the name of free speech you should oppose this bill. Talk about free speech this is it, much more than the liberals who wish to say anything, including four letter words, over the air. Thanks for your vote against NAB's petition 04-160.
